INTRODUCTION

The existence of crime in our state is a concern not only of law enforcement but of our society as a whole. This report presents an overview of criminal activity in Delaware in 1985.

There are a variety of statistics which could be used in the portrayal of crime in Delaware. These types include penal, prosecutive, arrest, offense, and conviction data. To depict the most meaningful data, the Uniform Crime Report Program (UCR) data on offenses known to police, persons arrested, and victims is utilized.

Because of their seriousness, frequency of occurrence, and potential for accurate reporting, eight offenses (Homicide, Rape, Robbery, Aggravated Assault*, Burglary, Larceny, Motor Vehicle Theft, and Arson) were chosen by the federal government to comprise a Crime Index and serve as indicators of the national crime experience. This report uses these national measurement criteria to report the status of CRIME IN DELAWARE - 1985.

There are limitations when using the national reporting standard; it does not address _all crimes_, and can present a misleading picture of the total crime. To correct this deficiency and provide a summary of all _reported_ crime the first section of this report provides a brief description of the Total Crime in Delaware in 1985, Section Two addresses the eight Index Crimes, and Sections Three and Four further expand on Violent and Property Crime classifications of Index Crimes.

Clarification of _all crime_ and _reported crime_ is warranted to provide the proper prospective of the scope of this report.

All Crime is defined as Index Crimes (or Part I Crimes) that encompass the eight crimes identified in paragraph 3 above, and Part II Crimes. Part II crimes encompass all crimes not defined as Index Crimes. Traffic violations _are not_ considered in crime reporting computations.

Reported Crimes are offenses that have been reported to and documented by law enforcement agencies. Historically, all committed crimes _are not_ always reported to the authorities. The failure to report crimes contributes to a reduction in the UCR crime activity level within any given period of time. If non-reporting levels remain consistent a comparison between time periods (e.g. Annual Reports) can accurately measure trends in criminal activities. If public apathy or intensity toward reporting crime change significantly the comparison may become inaccurate.

On occasion, an agency will receive a crime complaint which is determined through investigation to be false or baseless. If investigation shows that no offense occurred, the reported offense is still recorded but classified as "Unfounded". Refusal to prosecute, failure to recover stolen property, or make an arrest does not constitute an unfounded complaint. This report addresses only criminal offenses that have been investigated and found to be legitimate crime complaints.

Non-reporting of some data elements of the Uniform Crime Report (UCR), and other annual report program computation disparities have resulted in some tables and charts containing different data totals. Where a conflict existed, the data on the individual End of Year UCR report was utilized.

* Aggravated Assault is not a crime classification in Delaware. In Delaware assaults are classified by the degree of seriousness of the offense. Determination of the level of seriousness for each assault is relative to the offense's felony or misdemeanor classification. This report utilizes SERIOUS ASSAULTS (Felony Assaults) data to represent Aggravated Assaults.

EXECUTIVE SUMMARY

Crime in Delaware increased in 1985 compared to 1984. Majority of the 3,390 increased offenses were within the less serious category of criminal offenses. Index Crime continues to be seasonal, almost one-third were committed in the summer months of June, July and August. This summary provides a salient point synopsis of each section of this report. Comparisons (increases /decreases) are made between 1985 and 1984 data. Each synopsis gives the report page number where additional information for the subject can be located.

TOTAL CRIME: 99,810 criminal offenses were reported to the law enforcement agencies, an increase of 3,390 (+3.5%). Two-thirds of the offenses were the less serious or less frequently occurring felony or misdemeanor crimes. Index Crimes increased 110 offenses, an average of 9 per month. There were 26,979 arrests, 993 fewer than 1984, a decrease of 3.5%.

See Page TC1 for specific data on Total Crime.

INDEX CRIME: Comprised of selected Violent and Property Crimes, also referred to as Part I Crimes.

Increased 110, less than 1%, to 31,374 offenses. Even with this minor increase, the 1985 level is 5,000 less than the annual average of the last six years. Property Crimes are the most common offenses and outweigh Violent Crimes 10 to 1. Authorities cleared 26% of the reported offenses. Clearance rates for Homicide, Rape and Serious Assaults were above 70%; Burglary, Motor Vehicle Theft and Arson were below 20%.

Stolen property values exceeded $19.3 million with Motor Vehicles over $8 million. Recovered stolen property was $6.7 million, 34.9% of the amount stolen. Seventy-five percent of the arrested offenders and 91% of the victims were adults. More adults were arrested for violent crimes and less for property crime than in any year since 1979. Fewer juveniles were arrested for violent crimes in 1985 and the second lowest level for property crimes since 1979. Majority of the victims did not know the offender. In 88% of the offenses the offender was either a stranger or unknown.

See Page IC1 for specific data on Index Crimes.

VIOLENT CRIME: Includes Homicide, Rape, Robbery and Serious Assaults.

Increased by 20 to 2,743 offenses. Except for 1984, this is the lowest level for the past seven years. Homicide and Robbery offenses increased, Rape and Serious Assaults decreased. Over half of all Violent Crimes were Serious Assault offenses. Majority of the offenders and victims were adults, except that juveniles were 54% of the Rape victims. Authorities cleared 74.5% of all Violent Crimes.

See Page VC1 for specific data on Violent Crimes

HOMICIDE: 30 offenses, an increase of 5, the first increase since 1981. Homicide is a sporadic occurrence; Crime and seasonal patterns are not prevalent. Authorities cleared 76.7% of the Homicides. Fifteen persons were arrested, one was a juvenile. Thirty percent of the victims were related to their offender. This relationship percentage is the highest level of all index crimes.

See Page VC2 for specific data on Homicide Crimes.

RAPE: Decrease of 1 offense to 300, 11% of all Violent Crimes. Rape offenses have averaged a 12% annual increase since 1979. Authorities cleared 70% of the complaints. Adults were 83% of the arrested; Juveniles were 54% of the victims. In 70% of the offenses the offender was known by the victim. This is the highest known offender to victim relationship of all Index Crimes.

See Page VC3 for specific data on Rape Crimes.

ROBBERY: Increased by 65 to 778 offenses, the highest level since 1981. Majority of offenses were perpetrated in outdoor locations (Highways, Streets, and Alleys). Firearms were used in 26% of the offenses. Value of property stolen increased from $240,000 to $350,000. The number of robberies which occurred in residences remained level but the value of the property stolen increased by 30%. Authorities cleared 36.5% of robbery complaints. This is the lowest clearance rate of all Violent Crimes.

See Page VC4 for specific data on Robbery Crimes.

SERIOUS ASSAULT: Offenses decreased by 49 to a seven year low of 1,635. Primarily an adult crime, 84% of the victims and 90% of the arrested were adults. The victim demography had the widest dispersion on all crimes. Authorities cleared 74.5% of the complaints, the highest of all crimes.

See Page VC5 for specific data on Serious Assault Crimes.

PROPERTY CRIME: Includes Burglary, Larceny, Motor Vehicle Theft and Arson.

Increased by 90 to 28,631 offenses, an increase of only .3%, and the first since 1980. Burglary and Motor Vehicle Theft offenses increased, Larceny and Arson offenses decreased. Authorities cleared 22.4% of all Property Crimes. Primarily an adult crime, 90% of the victims and 70% of the arrested offenders were adults.

See Page PC1 for specific data on Property Crimes.

BURGLARY: Offenses increased by 163 to 6,846, the first increase since 1981. Value of property stolen decreased from $5.7 million to $4.8 million. There is a high degree of juvenile involvement in burglary, 35% of all persons arrested were juveniles. Authorities cleared 19.3% of the complaints, the second lowest level of all crimes.

See Page PC2 for specific data on Burglary Crimes.

LARCENY: Offenses decreased by 132 to 19,691, continuing the gradual decrease since 1980. Value of stolen property increased from $5.2 to $5.6 million with vehicles and buildings experiencing increased losses. Adults were 90% of the victims and 70% of the arrested offenders. Authorities cleared 23.9% of the complaints, the highest of all Property Crimes.

See Page PC3 for specific data of Larceny Crimes.

MOTOR VEHICLE THEFT: Offenses increased by 106 to 1,705, the first increase since 1979. All three counties had increase. Automobile theft had the highest increase in frequency. Juveniles were 28% of the arrested offenders. Authorities cleared 19.3% of the complaints.

See Page PC4 for specific data on Motor Vehicle Theft.

ARSON: Offenses decreased by 47 to 389. Property damage cost significantly increased by 82% from $1.47 million to $2.67 million. Arson had the lowest clearance level of all crimes with 15.7% cleared. Juveniles were one-third of the arrested offenders.

See Page PC5 for specific data on Arson Crimes.

CONTENTS

To facilitate easier location of specific crime data each section and page have been prefixed with a two digit alpha identifier. The report is divided into four sections; Total Crime (TC), Index Crime (IC), Violent Crime (VC), and Property Crime (PC). Violent and Property Crime are further sub-divided by type of crime with specific tables and charts on occurrence, arrests and victims data.

TOTAL CRIME SUMMARY

There are limitations in using the Uniform Crime Report's national reporting standard of Index Crimes in producing this crime statistical report. These limitations can create a misleading picture of the Total Crime in Delaware. To correct this potential misconception this section has been included to provide a broad picture of all reported criminal complaints in 1985.

Crime in Delaware increased by 3,390 complaints, to 99,810 an increase of 3.5% over 1984. This is the second consecutive year that Total Crime complaints have increased. Two-Thirds of the offenses were the less serious or less frequently occurring felony and misdemeanor offenses. They were the majority of the increased reported complaints. The highly visible Index Crimes, of the Uniform Crime Report, increased 110 offenses.

Included in this section are tables and charts on all crime complaints reported, and the Age, Sex, and Race of Arrested Offenders.

INDEX CRIME SUMMARY

This section contains data on Index Crimes which are comprised of selected Violent and Property Crimes reported through the Uniform Crime Report Program. The eight Index Crimes are Homicide, Rape, Robbery, Serious Assault (Aggravated Assault*), Burglary, Larceny, Motor Vehicle Theft and Arson. These crimes were selected as the national reporting standard because they are serious in nature, occur frequently, and are normally reported to law enforcement agencies.

In 1985 Index Crimes increased by 110 offenses, an increase of less than 1%. Property Crimes experienced the larger increase, with 90 more offenses than in 1984.

Included in this section are tables and charts on Violent and Property Crime Complaints Totals, Crime Rates, Complaint Clearance, Value and Type Property Stolen and Recovered, and Age, Sex and Race data of Arrested Offenders and Victims.

* Aggravated Assault is not a crime classification in Delaware. In Delaware assaults are classified by the degree of seriousness of the offense. Determination of the level of seriousness for each assault is relative to the offense's felony or misdemeanor classification. This report utilizes SERIOUS ASSAULTS (Felony Assaults) data to represent Aggravated Assaults.

* The 1985 Incarceration Rate is calculated on the total population ordered incarcerated, on December 31, 1985, which includes offenders imprisoned, detainees, and prisoners in a supervised custody program, federal prison, hospital or on furlough. The prior year calculations did not include detainees. The December 31,1984 Incarceration Rate, using the total population ordered incarcerated procedures would have been 364.

Serious Assault (Aggravated Assault*) offenses in 1985 decreased by 49 offenses to the lowest level since 1979. Compared to 1984 this is a 3% decrease.

Included in this section are tables and charts on Statewide and County Offense Totals, Crime Rates, and Age, Sex and Race data of Arrested Offenders and Victims.

* Aggravated Assault is not a crime classification in Delaware. In Delaware assaults are classified by the degree of seriousness of the offense. Determination of the level of seriousness for each assault is relative to the offense's felony or misdemeanor classification. This report utilizes SERIOUS ASSAULTS (Felony Assaults) data to represent Aggravated Assaults.
